

ACKNOWLEDGEMENTS

The production of this survey has been coordinated and funded by the Phylloxera and Grape Industry Board of South Australia. Some additional funding is provided by the Grape and Wine Research and Development Corporation, as part of the National Utilisation and Pricing Survey project.

The publication of this survey is made possible through the support of the South Australian and interstate wineries who processed fruit from South Australian vineyards in 2002. A list of contributing wineries is provided at the back of the report. The data is provided voluntarily by wineries on the understanding and assurance that information from individual wineries will be kept strictly confidential. Only aggregate responses are reported. Draft results are checked by regional industry representatives. Vintage reports have been provided by the regional representatives or their local committees. Particular thanks go to: Tim Adams, Bill Brand, Andrew Bryson, Jim Caddy, Alan Dean, Peter Freckleton, Richard Hamilton, Ross Heinze, David Lloyd, Paul Mathews, Robin Nettelbeck and John Pargeter.

The survey publication is available on the Board's website www.phylloxera.com.au. The entire report, or individual regions, can be downloaded as PDF files. The 2001 report is also available on the website, and hard copies of reports from previous years are available from the Board's office.

DISCLAIMER

While every effort is made to ensure the accuracy and integrity of the information reported in this document, no responsibility is taken for any errors or omissions. The Phylloxera and Grape Industry Board of South Australia expressly disclaims any liability for the accuracy and sufficiency of the information, and in no circumstances shall it be held liable for the consequences of decisions, actions, assumptions and interpretations made by those who use the information contained within the report.

INTERPRETATION OF REPORT INFORMATION

Please refer to the **EXPLANATIONS AND DEFINITIONS** for definitions, limitations and interpretations of different statistics reported.

DOCUMENT STRUCTURE AND LAYOUT

The survey report has been structured in two parts. There is a state summary section at the front, followed by a separate section for each region, containing vintage statistics, planting data and projections. Regions are presented in alphabetical order.
